KRAFTWERKS

Creating space. Maximizing productivity.

We offer a wide variety of industrial storage products and engineered storage solutions to help industrial and commercial customers save space, increase efficiency and increase workplace safety.

HIGH DENSITY SOLUTIONS

Mobile High Density Storage

- Customizable storage
- Greater space efficiency
- Eliminates fixed aisles
- Reduces your storage footprint by 50% or doubles your storage in the same footprint
- Modular components for design freedom and versatility
- Systems available in Manual, Mechanical or Electrical modes of operation

MODULAR DRAWERS & WORKSTATIONS

Modular Cabinets & Modular Drawers

- Adjustable and adaptable to your evolving needs
- Increase productivity and your picking rate by 25%
- Transforms more than 70% of the space used by regular shelves into profit making floor space

Workstations

- Supercharge your workflow
- Build your own workstation
- Digital locking system
- Professional grade mobile tool boxes for high-performance mechanics

ENGINEERED SYSTEMS

Modular Offices

- Modular construction is a cost effective alternative to construction
- Custom designs to fit a variety of applications
- Fast easy installation

Mezzanines

- Maximize existing space
- Elevate equipment to streamline operations
- Flexible – can be relocated or added onto
- Smaller investment compared to new construction

Every day we show companies how to save space increase accuracy, and reduce time spent reconciling inventory. Our consultative approach include best practices and emerging solutions.

AUTOMATED SYSTEMS

Go vertical with lifts and carousels to maximize your storage footprint

- Recovers an average of 80% of your floor space
- Improved productivity with more efficient picking
- Ergonomic design increases workplace safety and prevents injuries
- Units utilize overhead space which effectively multiplies storage capacity while using a smaller footprint.
- Automated Storage/Retrieval Systems (AS/RS) solutions are used worldwide and in virtually every major manufacturing and distribution sector.

SHELVING & RACKING SYSTEMS

A place for everything and everything “in its place”

- Smallest to largest items stored
- Lightest to heaviest items stored
- Labeling systems available to organize inventory to “5S” lean standards
- Effectively doubling your storage when utilizing your vertical space
- Adaptable to fit your space

SECURITY SYSTEMS

Superior protection for your robotic controls, inventory and equipment

- Adaptable to any product volume, weight or size
- Simple stock management
- Cost effective
- Durable
- Increased product visibility
- Easy to assemble

Material Handling Solutions

ISDA provides access to an extensive network of suppliers for material handling equipment and storage solutions. By choosing an ISDA member you gain full scale national and international providers to meet your storage needs.
