Small Storage Solutions

Our trained sales staff will analyze your storage issue.

We'll identify the best product to resolve it, providing options that are practical, secure (and attractive) to suit all applications.

Mezzanines

Freestanding mezzanines have space underneath — valuable storage space. Kraftwerks offers a variety of mezzanines to suit your unique needs.

High Tech Storage Systems

ASRS Vertical Storage Units automate storage and save space. They offer a controlled environment, and also increase safety — no ladders or bending down required.

Watch this video on storage and space solutions to learn more about what Kraftwerks can do for you!
