Kewaunee

Kewaunee covers all the bases

Kewaunee fume hoods have solid, rigid construction and are low on vibration and sound. They are all made for comfort, safety and efficiency with removable panels to provide easy access to service lines and fittings. Fume hoods can be paired with Kewaunee's high quality casework and safety cabinets designed to protect users against chemicals and corrosives.

Kraftwerks welcomes new vendor Datum Storage Solutions

Family owned Datum Storage Solutions is Kraftwerks' newest vendor partner. Datum specializes in offering products for museums, law enforcement and the military. Datum's American-made products meet rigorous ISO-9001 quality standards and are made with high-grade steel and durable powder coating.

Done the old fashioned way

Decades ago, the AutoCAD was known as a "drafting technician." They were usually men who didn't need electricity, but instead required pencils, erasers, and T-squares. Times have sure changed! We found this awesome article that has some great images of things done the "old fashioned way." (Not that we couldn't still do it this way, but using the AutoCAD certainly makes the process more efficient — and we work smarter not harder!)

Lock it up!

The lockers, cages, and cabinets required to lock items up for protection come in many forms. They are needed to safely guard a variety of products against theft, misuse, and exposure — and they protect everything from clothing to dangerous goods. Kraftwerks vendor partners like Wirecrafters, Penco, Kewaunee, and Datum offer products for a variety of uses, some of which include:

- Athletic facilities
- Educational facilities
- Tenant and/or garage storage
- Industrial storage
- Police and military storage
- Arts and museum storage
- Corrosive and/or flammable goods storage

Did you know....

Kraftwerks has the latest version of AutoCAD? Our AutoCAD equipment offers 3-D imaging with multiple architectural modeling

that can show high levels of detail like different lighting and shadowing. If you'd like to hear how the latest AutoCAD equipment could make a difference for you [let us know.](#)
