

ENGINEERING INTERN – COORDINATOR / ESTIMATOR (PART-TIME)

General Summary:

At Kraftwerks, Inc., we are the trusted provider of space, storage and material handling solutions throughout New York State. We provide solutions to help companies solve their biggest workspace and productivity challenges through turnkey services from design/build to project management, installation, and maintenance. Some product solutions include storage systems such as shelving/racking, mezzanines, mobile aisle, modular offices, automated storage/retrieval systems, as well as materials handling carts and conveyor systems. Typically, these products are used in manufacturing, assembly, and warehouse distribution markets. Additionally, we provide construction build out solutions including lockers, de-mountable partitions, laboratory casework, fume hoods, and wire partitions. We cross virtually all markets including aerospace, pharmaceutical, transportation, and food production to name a few; and serve both direct end users, as well as the construction industry. This is an opportunity to gain real world working experience. The intern position may lead to permanent job placement.
